More than 1,000 music lovers attended the concert given by the Pittsburgh Symphony Orchestra Monday evening in the Gettysburg High School Auditorium and their prolonged applause indicated they were highly appreciative of the music.

The "Carmen Suite" featuring the music from Bizet's opera proved the most popular, judging by audience applause, and the rapt attention of the listeners.

The full orchestra then returned to the stage for a "Commemoration Symphony" of Stephen C. Foster melodies, written by Robert Russell Bennett. The presentation included various favorite Stephen Foster numbers in a symphonic form.

Prolonged applause brought two encores by the Symphony Orchestra, "Hungarian Rhapsody" and Wagner's "Ride of the Valkyries."

He will leave by plane from New York. He was pastor of the Reformation Lutheran Church in Washington, D. C., for six years.

Rev. Dr. Folkemer has been doing special work in preparation for his new post here and for his visit to Germany. When he returns from abroad he will come here and will be associated in the department of theology and will teach philosophy of religion and comparative religions.

Rev. Dr. Folkemer is one of four clergymen who have been invited by the West German government to study present-day life and institutions in the Federal Republic and West Berlin.

In 1959 he was selected as the Knubel-Miller lecturer.

He is married and has two sons and a daughter.

SEMINARY GRAD IN LIMELIGHT

The Rev. John Gensel, graduate of the Gettysburg Lutheran Theological Seminary in the class of 1943 and pastor of the Church of the Advent on the Upper West Side of New York City, is the subject of a special feature in the section on religion in the October 24 copy of Newsweek.

Headed "Preacher At Birdland," the story tells of the Rev. Mr. Gensel's special ministry to musicians in many of New York's Broadway bars where professional jazz musicians are at home. The article quotes the 43-year-old pastor as sayying he finds many jazz musicians have problems to talk over in the early hours of the morning.

Described as "possibly the nation's only full-time minister to jazz musicians," the Rev. Mr. Gensel traces his interest in jazz to his teen-age days in Berwick, Pa. The Newsweek piece continues:

"Pastor Gensel came in 1956 to his Church of the Advent after a hitch as a Navy chaplain and ministries in Ohio and Puerto Rico. Advent then was a typcially rundown city church with a small congregation that had been with-

GOP And Democrats Deny Robert Kennedy's Charge Of Anti-Catholic Feeling

By THE ASSOCIATED PRESS

Religion has cropped up again on a wide scale in the presidential campaign with charges and counter-charges by Republicans and Democrats.

Robert Kennedy, campaign manager for his brother, Sen. John F. Kennedy, the Democratic presidential candidate, charged in Philadelphia Monday that Republican leaders in Bucks County in eastern Pennsylvania are distributing anti-Catholic literature in an effort to hurt the senator's campaign.

Sen. Kennedy is a Roman Catholic.

In Harrisburg, the state capitol, W. Stewart Wilbern, Dauphin County Democratic chairman, issued a statement saying the Harrisburg area is being covered with "scurrilous, anti-Kennedy religious literature."

DOES NOT NAME LEADERS

Robert Kennedy declined to name the leaders he said were involved. He told newsmen that his brother would romp away with the November election if it weren't for the religious issue.

John J. Bodley, Bucks County commissioner and Republican leader, said Robert's statements were untrue. He said Robert "is being misled" by false reports.

John Mulligan, Bucks County Democratic leader, said he didn't know of any Republican official participating in the distribution of anti-Catholic literature and added he didn't know where Robert Kennedy got his information.

Wilbern said a number of persons found the alleged literature on their property after they returned from a campaign rally addressed by Vice President Richard M. Nixon, the Republican presidential candidate, during a whist stop tour of Pennsylvania.

Wilbern did not identify the source of the literature.

"To stop it," Wilber said, "Vice president Nixon should not only denounce it, as he has, but also demand that the distributors stop it."

George I. Bloom, Pennsylvania Republican chairman, commenting on Wilbern's statements, said:

"Democratic party leaders in Pennsylvania, not the Republicans, are keeping the religious issue alive. They are keeping it alive because they think it will benefit thm Nov. 8."

Two paintings by Mrs. H. Thomas "Mike" Pyle, Idaville, have been presented to the Woman's Club of Gettysburg to be used to help raise funds at the annual card party which will be held at the Moose Home at 2 p.m. November 2.

One painting, 21x28 inches, is of the covered bridge at Brown's Dam. It has since been razed.

The second painting, 17x19 inches, is called "Still Life With Iris." The two paintings are on display in the widow of Philip Bikle's insurance office, Lincoln Square.

6 SNOWS FELL HERE IN OCT. IN LAST 57 YEARS

Gettysburg and Adams County got an early preview of winter weather Monday afternoon when wind-driven snow flurries came close to covering the ground with the white stuff that in upper Pennsylvania counties had reached a depth of six to seven inches.

While few Octobers have seen snow in Gettysburg, only six times in the last 57 years, there have been earlier snows here and heavier ones in other Octobers, Gettysburg Times' weather records showed today.

The last time snow fell here in October was October 27 and 28, 1957, when snow flurries occurred but on October 19 and 20, 1940, the snow reached a depth of 1.7 inches. There was a trace of snow here in October, 1930, 1917 and 1903, but the heaviest October snowfall on record in Gettysburg came on October 30, 1925. Three inches were measured to set an all-time record.

COLDEST OCTOBER DAY

The coldest October day on record here is October 28, 1926, when the mercury dropped to 22 degrees. The month also has seen 90-degree readings on seven days in the last 57 years — or since continuous weather records were established here.

Monday's "little blizzard" found state Highway Department workmen already erecting snow fences for expected winter snows. Superintendent Clyde Garber said the work on the snow fences was begun a week ago and will be completed before November 15. Last year about 18 miles of snow fence was erected and that will be put up again this year. An additional 35,000 feet of new fence has been promised here so that a total of 130,000 feet of snow fence may be used here this winter.

TELLS ABOUT AFRICAN TRIP IN U.N. SPEECH

"Thank God, colonialism is on the way out in our world today," Dr. Dorothy Douglas, visiting professor in the sociology department of Gettysburg College, said in a U.N. Day talk before the Gettysburg Lions Club Monday evening at the VFW home.

Noting the slow progress toward education, health services and other marks of progress under the colonial system in Africa as contrasted with the much more rapid strides in those directions after independence or self-determination was achieved, Dr. Douglas said: "The step to independence seems to be a necessary first condition for them to advance farther, although sometimes they seem ill prepared for it in many respects."

Mrs. Douglas spoke chiefly of conditions in Kenya as she observed them in an eight-week auto trip through eastern and central Africa three years ago. Predicting that Kenya soon will be ready for U.N. admission, Dr. Douglas said that as a British territory it has fared better than some other colonies, particularly those under the rule of the Belgians.

"HUNGRY" TO LEARN

Some British colonies have fared better than others and Kenya is not at the top of the list, she said. Citing examples she observed of the "nonhumane attitude toward other human beings," she described the lot of the

Castro Grabs 167 Very Valuable U.S. Firms In New Retaliatory Drive

By HAROLD K. MILKS

HAVANA (AP)—Fidel Castro's government today confiscated the most valuable remaining American-owned firms in Cuba to retaliate for the United States embargo on most exports to Cuba.

A new nationalization decree ordered the seizure of 167 firms, leaving 213 American companies untouched. Most of those still not in government hands are comparatively small, and U.S. officials estimate their value at probably no more than $25 million.

This is exclusive, however, of the $85 million Moa Bay Mining Co., which was not confiscated although hit has been controlled by the government under intervention for months. There was no explanation for why Moa Bay was not seized outright.

HAD VAST HOLDINGS

The confiscation order covered most of the $250 million in American property left here. Before Castro's government started its wholesale seizures, American citizens were estimated to have owned or controlled a billion dollars worth of property in this island nation of six million people.

The latest government decree cited Washington's recent embargo on all American exports to Cuba except food and medicine. The decree called the embargo "exceptional aggressiveness" and "designed to strangle our economy."

Notable exceptions to the newest nationalization included the Moa Bay Mining Co., an $85 million nickel and cobalt operation in Eastern Cuba.

SNARE NICKEL PLANT

Among the firms nationalized were Sears Roebuck, Woolworth's and the operating firm for the U.S. government's Nicaro nickel plant, which has a $110 million book value.

Also still untouched was the big U. S. Navy base at Guantanamo, on the southeast coast, which the United States holds on a perpet-

3 BUSINESSES BURGLARIZED THIS MORNING

Burglars sometime early this morning forced their way into three establishments along York St. and Lincoln Highway East but failed in their attempt to obtain entrance into a fourth place.

Borough police are investigating an attempted entrance into the East End Gulf Service Station, 500 York St., and burglary of the Snack Shack, 637 York St.

Merle Rudisill, Gettysburg R. 5, proprietor of the service station, told borough police that someone between 11 p.m. Monday and 7 a.m. today, broke a window on the east side of the garage, opened the lock, but failed to gain entrance. Rudisill said that the window has not been opened for some time due to rust and paint.

BREAK REAR DOOR

Damage and loss by theft totaled about $75 at the Snack Shack, according to Mrs. Hilda Newman, proprietress. She told The Times that the burglars broke a rear door and latch to gain entrance. Inside, they broke the cash register drawer and stole about $6 in pennies. Mrs. Newman said that the register was unlocked but the robbers failed to recognize this. Also stolen were cigarettes, chewing gum, cakes, candy bars and possibly some items from the freezer and refrigerator.

State police, who investigated the robberies on Lincoln Highway East, said entrance was gained at Warren's Chevrolet by breaking a rear window. Inside, the coke machine was broken into and about $10 was believed stolen. They said the office was ransacked and tools amounting to $10 were believed stolen.

State police are continuing their investigation of another establishment near Warren's which was also robbed during the morning. Tax money and about $2.50 in cash was stolen in addition to an undetermined sum taken from a cigarette machine.

DISPUTE OVER FISH FOOD IS IN COURT HERE

An Adams County jury is being asked today to decide who broke the contract for fish food pellets between Louis Karmatz, trading as Universal Food Co., Harrisburg, and Zeigler Brothers Feed Mill, Gardners.

Karmatz, on the witness stand this morning, testified he had entered into a contract with Zeigler Brothers for the Gardners concern to provide his firm with fish food pellets of different sizes which he in turn sold to the state for its fish hatcheries.

In late November and early December, 1958, he sent checks for 30 tons of the fish food, but asked that the checks be not cashed until he received his money from the state, Karmatz said. He added that when he found he was not going to get the money from the state on the date he thought, he notified Zeigler Brothers and later borrowed money from the bank to cover the $3,945 cost. He made another payment of $3,945 under an agreement with LeRoy Zeigler that the Gardners firm would not furnish any pellets unless Karmatz had made prior payment with a certified check or cash.

CLAIM ORAL AGREEMENT

He said on December 23 when he "paid up" he understood that the contract would continue, but later that day received a letter stating that in Zeigler Brothers'

Castro

ual lease. Castro has said he would, at some future date, demand that the United States give up the base. But he said he would make his demand through legal channels, possibly meaning he would go to the World Court.

GET NO COMPENSATION

Like the American owners of other properties seized previously by the Castro regime, owners who lost their holdings today are expected to get no compensation.

A Castro decree provides that compensation will be paid out of a percentage of the proceeds from Cuban sugar sold in the United States in excess of three million tons a year. The United States has already cut its purchase for this year below that figure, and there is widespread belief that it will import much less—or nothing—from Cuba next year.

Many of the firms nationalized today had been under government control for some time, and the confiscation was only a formality. These included the Nicaro Nickel Co. and such top luxury hotels as the Riviera, Hilton, Capri and Nacional.

The government also has taken over operation of the Moa Bay Co., so its confiscation is only a formality to be taken when Castro needs something else to present to his people as a retaliatory action against the United States.

OTHERS CONFISCATED

Also confiscated under the decree issued at dawn were the Cuban properties of the Coca-Cola Bottling Co., Westinghouse, General Electric, the Minimax chain of supermarkets, Reynolds International Aluminum, the Railway Express Agency, the Havana racetrack and Havana's only armored car service.

The confiscation also took in companies operating in the drug, automobile, mining, oil, insurance cosmetics, poultry, construction, bedding, sewing machine, machinery, clothing, textile and other fields.

The government had been operating many of these firms for some time, but this latest decree brings them under outright government ownership.

BLOOM HITS AT KENNEDY

HARRISBURG (AP) — Republican State Chairman George I. Bloom said today he was alrmed over what he termed Sen. John F. Kennedy's "use of Red Russia's statistics to measure progress in the United States."

He gave these reasons for his concern:

"First, it indicates Kennedy's willingness to accept Russian standards which in no way approach America's.

"Second, he naively believes Russian progress claims to be true despite statements just six weeks ago by Soviet Economist Strumilin that the Red Government has exaggerated its rate of industrial growth."

Bloom said the Democratic presidential nominee was showing "his immaturity in the field of international affairs by blind acceptance of Russian claims which he would recognize as untrue had he attended meetings of the Senate Foreign Relations Committee of which he is a member."

Hungarians Told To Be Good Sports

BUDAPEST (AP) — Hungarian footballers were told today they should learn to love their opponents, not call them dirty names.

The newspaper Nepsport said a Communist society expected certain rules of "human togetherliving" to be honored and those who broke them should be "re-educated."

Nepsport said it was all to frequent for one player tackling another to say "How are you, you . . ."

And for the other to reply: "I'm fine, you . . ."

The paper added far too many footballers who had been fairly tackled "played the moribund toreador like third-rate actors, writhing on the ground in sham agony while watching the referee through their fingers."

COLLEGE OPENS WITH DR. KADEL AS PRESIDENT

Florida Presbyterian College at St. Petersburg, Fla., with a former Gettysburgian as its president, opened in September with 120 founding Freshmen enrolled.

The president of the college is the Rev. Dr. William H. Kadel, a Gettysburg native and son of Mrs. J. H. Kadel, W. Middle St. The 46-year-old prexy heads the first new United Presbyterian-related college founded in 50 years.

The current edition of Presbyterian Life, weekly publication of the United Presbyterian Church in the U. S. A., has the following to say about the new college:

FACULTY OF 28

"The idea of a Presbyterian college in Florida was born in 1955 when six Florida ministers met to discuss the opportunities for Christian higher education in the state. Three years later, Dr. William Kadel left the pastorate of First Presbyterian Church, Orlando, Fla., to become the first president of the college.

"In just two years, Dr. Kadel, together with an active Board of Trustees, has developed a faculty of 28 persons, 17 of whom possess earned doctorates; built an interim campus out of the old St. Petersburg Maritime School, and established an endowment of several million dollars.

"Tuition and fees are set at $975, with meals, room, laundry and books to run about $725. The first year's budget will be about $900,000 for the fiscal year of 1960-1961.

"Florida Presbyterian College is sponsored by the Florida synods of the Presbyterian Church in the U. S. (Southern) and the United Presbyterian Church in the U.S.A."

Today's Talk

FORGET IT

There are two simple, though powerful, words that have often changed an entire life. Here they are: FORGET IT! When wrought up and in anger, do we add to the tragic business of adding to the fuel?

How wonderful it is to add to the other person's source of control. We all have our misunderstandings. Many lead to heart hurts that leave scars behind.

A good test of character is to stop and consider and then to decide to FORGET IT. Silence is also good medicine to apply when in need of readjustment.

I once thought that life was long and full of complications. I have learned that life is extremely short. So much to do in so brief a time! Just to have lived has been a wonderful experience! It makes me feel that life IS worth while.

Most of my life has been happy because there have passed my way inspiring friends who have given me much cheer.

I grieve in my heart when an unhappy person contacts me. It is so much easier to be happy than to be unhappy.

Those two words—Forget It—can do away with a multitude of misunderstandings among people.

Tomorrow Mr. Adams will talk on the subject: "Talk It Over"

Just Folks

A SONG

What were life with all its joys,
If you couldn't share them?
What were roses, red and rare,
With you not here to wear them?

What were summer days so fair,
Without you to endear them
What were songs that I might sing,
Without you near to hear them?

All the griefs I have to bear,
When I'm near you lighten;
All my clouds of grim despair,
You, my sweetheart, brighten.

So I sing my song to you
Sing my songs about you;
Life would be a living death,
Were it lived without you.

IKE WELCOMED BY 300,000 IN HOUSTON, TEX.

By MARVIN L. ARROWSMITH

HOUSTON, Tex. (AP) — President Eisenhower rates America as history's most powerful nation. He says it needs no giant new defense programs or any massive economic shot in the arm from the federal government.

The President ended a cross-country speaking tour on that note Monday night—a nine-day trip billed by the White House as non-political. Today he flies back to Washington to prepare for putting on his political gloves in a stretch-drive effort to elect the Nixon-Lodge ticket.

Friday evening Eisenhower will address a nationwide television audience from a rally in Philadelphia. A week from Wednesday he will be in New York for another major political address which will be carried coast-to-coast on both radio and TV. He may make additional speeches.

ROARING WELCOME

Eisenhower, a native Texan, got a roaring welcome to Houston from a police-estimated crowd of 300,000. He carried Texas in 1952 and 1956, and the backers of Vice President Richard M. Nixon, hope the President's great popularity will keep the state in the Republican column Nov. 8.

Nixon's rival, Sen. John F. Kennedy, has been hammering throughout the campaign at his contention that U. S. prestige has slipped abroad during the Eisenhower administration. He says America is strong militarily but needs to be stronger, and that the Soviet Union is outpacing this country in rate of economic growth.

Eisenhower said at Rice University: "If we, today, look at ourselves in true perspective, we see a great nation—the most powerful the world has seen, with a confident, virile people, a vigorous, expanding economy."

STATE FISH COMMISSION'S DOORS CLOSED

HARRISBURG (AP) — Pennsylvania's Fish Commission has decided to continue its policy of closed meetings with briefings afterward for newsmen.

The commission, which announced recently it would strive to improve public relations, says, however, it will inaugurate a new practice of holding public meetings.

Outlining the commission's reasoning in keeping its regular sessions closed to the public and to newsmen, President Wallace Dean of Meadville said Monday:

"In this organization there are many personnel problems discussed. For the commission, it's in the family, it's information for the commission itself, not the general public. It's not news."

MOST ARE PUBLIC

Most other state agencies — including the General State Authority, the Public School Building Authority and the policy-making Executive Board—allow newsmen to sit in on their sessions. So does the State Civil Service Commission at regular meetings and hearings dealing with personnel matters.

Dean said after the regular meetings, newsmen will be briefed on what happened. That was the practice in the past although it usually was a case of reporters initiating inquiries on their own.

Albert M. Day, the commission's executive director, said the public meetings — he mentioned no dates of ones upcoming—would enable sportsmen to learn more about the commission's activity.

LISTS TOPICS

Dean said "information about any reasonable subject" could be discussed at these meetings.

After Monday's session, Day reported the main subjects discussed were new boating legislation, fee fishing on private-owned lakes and efforts to eliminate pollution of Spring Creek in Centre County.

On the latter, Day said there was "encouraging progress" being made toward ending the controversial pollution problem.

He said representatives of the House Fisheries Committee, the State Sanitary Water Board and the commission met with Dr. Eric A. Walker, president of Pennsylvania State University, "and the indications are that the college will be moving on this shortly."

Nixon To Return To Pa. Next Week

PITTSBURGH (AP) — Vice President Richard M. Nixon, who whistle-stopped through Pennsylvania Monday, will return to Pennsylvania next Tuesday for stops at Lancaster and Erie.

George I. Bloom, state Republican chairman, said Monday night Nixon would fly to Lancaster for a rally about noon and then fly to Erie for an afternoon rally.

"We want to get him back into the state because he creates and generates so much enthusiasm," Bloom said.

"He was to visit Lancaster County during his campaign visit Saturday, but time wouldn't permit it. He felt bad about missing that county and so he has agreed to come back to Pennsylvania."

HARRIS GIVEN RECOGNITION

FAYETTEVILLE, Ark. (AP) — Arkansas' Wayne Harris is small for a college lineman, but Razorback Coach Frank Broyles says, "I don't see how anybody could be a better college football player."

Harris, a center and linebacker known for his hard tackles, earned that praise last Saturday against mighty Mississippi. Though the Rebels eked out a 10-7 victory, Harris keyed a stout Arkansas defense which allowed Ole Miss to start only eight plays in Razorback territory.

UNCANNY ABILITY

The 185-pound Harris uses speed and determination, plus an uncanny ability to get in on the tackle, to make up for any lack of size.

Against Mississippi he was in on almost half the tackles. He made six unassisted. Such defensive leadership is expected from Harris. Through the first six games he had a total of 35 tackles and 63 assists.

The El Dorado, Ark., product doesn't worry about his size.

"I just try to hit them harder than they hit me and faster," he says. "If I don't they'll run right over me."

DIPLOMAT'S WIFE FAMOUS AS ACTRESS

By JOY MILLER
AP Women's Editor

NEW YORK (AP)—It's a rare movie star who will let a reporter see her with hair flattened in pincurls, wearing no makeup.

It's probably an even rarer foreign minister's wife who will receive in a pink quilt robe.

Helle Krag, who is both, had no compunction the other morning. It was 9:30 a.m. and she had been up late at social functions for the king and queen of Denmark, who were winding up their U.S. visit.

SEEMED LOGICAL

It seemed logical enough for the pretty blonde to curl up in an easy chair, bare feet tucked under her, to discuss her acting career; her husband, Otto Jens Krag, Denmark's foreign minister; and what they had been doing during his three-week stint as head of the Danish delegation to the United Nations' General Assembly.

Mrs. Krag, as Helle Virkner, is a famous stage and screen star in Denmark. She has been an actress for 16 years, but is still in her twenties. None of her 26 movies has been brought to this country.

"They're just shown in Denmark, Norway, Sweden and Germany," she said in excellent English.

Her husband approves of her career, she said, and she likes to keep working "a little."

QUICK MARRIAGE

"You never know what will happen in your life," and it's good to have some sort of work."

She met Krag—who is 11 years her senior—at a party for Indonesia's President Sukarno. "It was May 16, 1959," she recalled. "He introduced himself and we talked two minutes. We met again July 3, and were married July 31. I had seen him fewer than 10 times, but I knew he was the right man.

"We have a baby boy named Jens Christian. He is 3 months and 14 days old, and I miss him terribly."

At home, she said, she tries to help her husband in his political career by giving parties.

"In Denmark, wives don't get out and campaign for their husbands as women do here," she said.

DISAPPOINTING DEBUT

LOS ANGELES (AP)—The debut of the Los Angeles Lakers in their new home in the Sports Arena was an all-round disappointment.

The New York Knickerbockers beat the Lakers 111-101 in a National Basketball Association game Monday night before only 4,008 fans.

It was the third consecutive defeat for Los Angeles, which has yet to win a game this season.

ONE VOTE COULD WIN— *YOURS!*

No matter how many millions of ballots are cast, it takes only *one* vote to win a closely contested political campaign. In 1948, for example, our presidential election was decided by one vote in each precinct of just two states. You can see why it's so important for you to vote. That one vote of yours could make all the difference. That one vote could make history.

EVERY VOTE COUNTS— SO STAND UP AND BE COUNTED

'WILD MAN' APPREHENDED

PULASKI, Va., (AP)—Onetime "wild man" Jackie Jennings was back in the hands of the law today after a jailbreak that brought him less than 36 hours of freedom.

The 19-year-old desperado and one of his three companions in the Sunday escape were caught late Monday by police who surprised them in a summer cabin on the shore of nearby Claytor Lake.

Jennings and Glenn Burlen Montgomery, 26, were flushed from their hideaway by police who invaded the cabin while the two were frying eggs. They tried to flee on foot but were captured in woods not far away.

ARRESTED BY RELATIVE

State trooper Blane Huff, a relative of Jennings by marriage, placed the Pulaski youth under arrest.

Huff last April had risked his life to speak with Jennings while the young laborer, armed with a shotgun, held off besieging police at the home of his father-in-law. Jennings had barricaded himself in the house with his 10-year-old sister-in-law as hostage. Tear gas finally routed him from the residence and he was hauled, screaming, to jail.

Jennings last week was sentenced to prison terms totaling 34 years for his April 11-12 escapade.

CAIRO, Egypt (AP)—An Egyptian court today sentenced six foreigners convicted of spying for Israel to prison terms ranging from 7 to 15 years.

The court ordered death sentences for three of the 11 Egyptian tried with the foreigners. The others got prison terms ranging up to 15 years at labor. An Egyptian woman—the only woman defendant—was given a six-month sentence.

ADVERTISE IN THE TIMES

TWO NETWORKS HIT HEIGHTS MONDAY NIGHT

By CYNTHIA LOWRY

NEW YORK (AP)—There will be no grumbling in this corner today about the low state to which television has fallen.

Between Monday night's "The Right Man" on CBS and "Shangri-la" on NBC, the two networks turned out the most satisfying evening of pure entertainment we have seen in a long, long time.

First, there was the often amusing, sometimes inspiring review of presidential campaigns over the years. CBS' Garry Moore took us on a tour around the parades to the edge of the hustings into the smoke-filled rooms and right on the convention floors without regard to chronology. He gave us the flavor of this curious, once-in-four-years period when, as he phrased it, the American people "prove we're the government."

GABEL AS BRYAN

There was Martin Gabel reciting William Jennings Bryan's "Cross of Gold" speech with all the oratorical flourishes. Edward G. Robinson played Teddy Roosevelt and looked just like him. Art Carney caught the inflections and manner of speech of Franklin D. Roosevelt perfectly and Richard Boone as Abraham Lincoln, leaving Springfield for Washington, did a moving scene from Robert E. Sherwood's play. There was much more.

NBC's first Hall of Fame special of the year was an adaptation of James Hilton's best-selling "Lost Horizons." It was the story of five travelers whose plane was wrecked in the mountains of Tibet and who were brought to a lamasery in a beautiful hidden valley. Shangri-la was a place of magic where it was always spring, where there were no clocks, and where the people remained forever young, happy and beautiful.

The settings and costumes—particularly for the lucky viewers who saw it in gorgeous color—were beautiful. The performers were attractive and the plot was an adult fairy tale. Songs, for some reason, were added to all this, and when the trite lyrics were sung by performers Marisa Pavan and Richard Basehart they detracted from rather than heightening the illusion. The addition of the music did give Gene Nelson and Helen Gallagher a chance to do a handsome dance number.

One of the television trade magazines, Broadcasting, has made a careful tabulation in its current issue showing that the bill for network television campaigning by the national candidates comes to close to $4.5 million—of which about $2.8 million was absorbed by the three major networks without charge to the political parties or campaigners.

TO THE PEOPLE OF ADAMS COUNTY

Three years ago I resigned a position with private industry and ran for Treasurer of Franklin County. It was the first time I had ever sought public office, and I knew that in order to win I would have to have the support of friends in both the Democratic and Republican parties. My friends, regardless of political affiliations, stood by me at that time and elected me to the office of Franklin County Treasurer.

Throughout my term as treasurer, I tried to serve ALL citizens to the best of my ability and judgment. I have tried to administer the office courteously and efficiently, in the best interest of ALL the taxpayers.

I am neither a Democratic or a Republican County Treasurer. There have been occasions that I have not been able to please some of my own party.

Now I am a candidate for another important office, that of State Senator from the Adams-Franklin District, an office in which I would play a part in shaping the laws that affect our every day life. And in order to win this office, I need support of all the Democrats of Adams County and a great number of Republicans, as well.

I have stated many times before that if it is good for ALL of the people of these two great counties, Adams-Franklin, I am for it. If it is harmful I am against it. Honesty has been my guide post—from this I shall not stray.

I respectfully ask that ALL you good citizens of Adams County give me your support at the election on Tuesday, November 8. I assure you that, if elected Senator, I will work hard to justify your confidence in me.

TERHES TAKES LEAD IN MAC GRID OFFENSE

Bucknell's ace quarterback Paul Terhes moved one step closer to national recognition this week by taking over the lead in total offense in the Middle Atlantic Conference's university division.

The 195-pound veteran from Milmont Park, Pa., increased his total yards gained to 484 for three games to move ahead of Lafayette's Charlie Bartos, last week's leader. Terhes also increased his lead in passing, accounting for 35 completitions in 53 attempts for 424 yards and four touchdowns.

Bartos, although well-contained by Bucknell's defense last Saturday, continues to lead in the rushing department with 340 yards on 87 trips with the ball.

TIES RICHTER

In pass receiving this week, Dick Tyrrell of Bucknell pulled abreast of Gettysburg's Harry Richter, last week's leader. Both men have 12 completions and a touchdown, with Richter accounting for 153 yards and Tyrrell for 129.

Pape Lukk, Delaware's capable punter, was demoted from his No. 1 position this week by Lehigh booter Ed Winchester. The latter has averaged a very respectable 41.1 yards a punt in six tries.

The 24-point standard set by Lehigh fullback Boyd Taylor two weeks ago is still not threatened. Dick Johnson of Bucknell remains second in scoring with 13 points, while seven university division players have each accounted for 12 points.

Statistics on Gettysburg College performers follow: Rushing — Eddie Lucas, second, 159 yards; passing — Jack Norwood, fourth, 11-24, 144 yards and two touchdowns; Earl Little, fifth, 11-27, 143 yards and one touchdown; total offense — Lucas, fourth, 159 yards; Norwood, fifth, 149 yards; Little, seventh, 133 yards; pass receiving — Harry Richter first, 12 receptions, 153 yards, one touchdown; Ron Frederick, three receptions, 34 yards; punting — Lance Butler, fourth, eight for 36.5 average; scoring — Horace Goodman, two touchdowns; Little, one touchdown and three extra points.

FOOTBALL IS THE BEST EVER, SAYS MENTOR

By DAVID M. NELSON
Head Football Coach
University Of Delaware
(Written for the Associated Press)

Football in 1960 is a better game in every respect than at any time during its history.

The regulations of the conferences and other governing bodies have made the conduct of the game and the academic and eligibility requirements commensurate with the institutional setting.

This, coupled with pressure for better scholars brought about by the great influx of students and the sputnik influence, has brought the quality of the student athlete to an all-time high.

EVERYTHING SUPERIOR

The actual playing and conduct of football is superior to anything we have known in the past because of time, money and effort.

Great coaches and players of the past would be outstanding and successful in this era but the number of men of equal quality is far greater today.

The modern coach has more assistants, spends the entire year with the game, has a single assignment and has access to information never available to former coaches. The enormous number of periodicals, manuals, books and clinics enable the coach in the smallest school to keep in step with the latest ideas in all aspects of the game.

There was a time, before television, game movies and clinics when a coach could use an offensive or defensive idea for several years without ever changing. Today a new idea, or the remedy for it, is spread over the entire country within a year.

A successful defense, or offense, seen on television will have the minds of all the coaches in the country working on a method to break it.

As a consequence, coaches are forced to coach a game with a greater variety of situations and the spectator is treated to a better game.

NEW YORK (AP) — Center Larry Wilson, who scored eight points last week for the sixth-place Buffalo Bisons, ahs moved into first place in the American Hockey League's individual scoring race.

League statistics released today show Wilson with a total of 14 points on four goals and 10 assists after a productive week in which he scored three goals and added five assists.

BHS JAYVEES NIP WARRIOR RESERVES 7-6

A touchdown and extra point conversion in the first minute of the final period gave the Biglerville High School junior varsity football team a 7-6 victory over the Gettysburg jayvees Monday afternoon at Biglerville. The Canners are 2-3 while the game marked the only game this season for Gettysburg.

The Warrior scrubs jumped in front 6-0 in the second quarter when Mickley raced over from the 10 to climax a seven-play offense from the midfield. Mickley was stopped when he attempted to run for the point.

Late in the third period Don Sterner's Canners began a drive from the Gettysburg 45. Bill Slaybaugh and John Ernst did the bulk of the ball-toting with Ernst finally going over from the one on a quarterback sneak. Ernst carried over on the extra point try to give the victory to his team.

Next Monday Biglerville will conclude its schedule with a game at Boiling Springs.

MUSIAL NAMED COMEBACK MAN OF NL PLAYERS

By CHUCK CAPALDO
Associated Press Sports Writer

ST. LOUIS (AP)—If Stan Musial has his wish, he'll make an even bigger comeback in 1961 than the one that earned him The Associated Press' National League Comeback Player of the Year award for 1960.

"I'd like to hit over .300 next season," the St. Louis Cardinals' all-time great said today, "and possibly play a little more. I wasn't a bit tired at the end of the season."

EDGED SIMMONS

Musial, who will be 40 on Nov. 21, beat out teammate Curt Simmons by 11 votes Monday in the AP poll of baseball writers. Musial received 55 ballots, Simmons 44. Bob Friend of Pittsburgh was third with 30 and Richie Ashburn of Chicago fourth with 11. Another Cardinal, Ernie Broglio, rounded out the top five with 7 votes.

Musial got the nod for a midseason spurt that carried him and the Redbirds into the higher echelons of the NL. Many thought Stan was washed up following the 1959 campaign when he fell off to .255—55 points below his previous career low. He worked hard during the winter, though, and set sail into '60 like the Musial of old.

PRODUCTIVE YEAR

In May, however, Stan sloughed off to .250 and was benched. Manager Sollie Hemus put him back in the lineup a month later when veteran outfielder Bob Nieman was injured. The Cards won 33 of their next 47 games. Stan's average jumped 80 points to .316.

He finished with a creditable .275 average, 17 homers and 63 RBI in 116 games. "It was a good, productive year," said Stan. The Cards wound up third.

On Sept. 15 Musial put an end to speculation he would retire by announcing he will play again he said.

HARRISBURG (AP)—The State Selective Service Bureau Monday said the December draft call for Pennsylvania will be 527 men. The November call is for 465 men and the call last December was for 734 men.

PIRATES GET $8,417 EACH FROM SERIES

NEW YORK (AP) — The Pittsburgh Pirates, baseball's latest team of destiny, finally have reached the point where they can pocket the profit of the World Series monies. One full share of destiny was worth $8,417.94, before taxes.

That was the figure announced Monday by Baseball Commissioner Ford Frick. A full share of the losers' pool amounted to $5,214.64 for the New York Yankees.

The Bucs' bucks totaled $286,500.82 that was split into 33½ full shares divided among 38 persons — Manager Danny Murtaugh, players, coaches, their trainer and clubhouse attendant—and 12 cash awards totaling $4,500, divided among the bat boy, clubhouse assistants, the groundkeeper part-time players and batting practice pitcher Virgil Trucks.

OTHERS' SHARES

The Yankees split their over-all take of $191,000.95 into 35⅓ full shares, divided 41 ways and 11 cash awards totaling $6,750.

Thirty per cent of the players' pool is divided among the first division teams in the two leagues —the runners-up getting 15 per cent, the third-place clubs collecting 10 per cent and the fourth-place finishers getting 5 per cent.

That broke down to a full share of $1,527.75 for the Milwaukee Braves, $991.39 for the St. Louis Cardinals and $501.58 for the Dodgers, who placed two-three-four behind the Pirates in the National League. In the American, the Baltimore Orioles' full share was $1,564.68, the White Sox' $935.00 and the Cleveland Indians' $494.31.

Finch Jurors Out For Their 6th Day

LOS ANGELES (AP) — The Finch murder trial jury starts its sixth day of deliberation today.

The 11 women and one man pleted 22½ hours behind closed doors Monday, debating the guilt or innocence of Dr. R. Bernard Finch and his ex-mistress, Carole Tregoff.

The two are on trial for the second time in the July 18, 1959, slaying of Finch's estranged wife, Barbara. The first trial jury deadlocked last March.

IOWA RETAINS FIRM GRIP ON TOP GRID SPOT

By ED CORRIGAN
Associated Press Sports Writer

Iowa continued as the No. 1 football team in the country for the second straight week in The Associated Press ratings today—and this time the Hawkeyes won going away.

When they took over as top kick last week, they nosed out Mississippi by just two points.

This week, they compiled 458 points to 395 for the Rebels. Thirty-four members of the 48-man voting board placed the Hawkeyes first. Nine others had Mississippi in first place and five awarded the No. 1 spot to Syracuse, which finished back in third place with 355 points.

FEW CHANGES

The points were figured in the usual order of 10 for a first place vote, 9 for second place and so on down the line. All told, only 19 teams received votes.

There was little change from last week's ratings because only one team in that first 10 lost. Purdue, which had held down the 10th spot, fell before Iowa, 21-14, and as a result bounced out of the select company.

Michigan State, on the basis of its 35-0 victory over Indiana, elbowed its way into the No. 10 position.

The leaders with first place votes in parentheses:

1. Iowa (34)	458
2. Mississippi (9)	395

67-Year-Old Lady Stops Robbery

ST. LOUIS, Mo. (AP)—Edith Bruns, 67, was in the family dairy Monday when a young bandit displayed a revolver and snarled, "Don't think I won't shoot."

Mrs. Bruns, a bottle of milk in each hand, replied, "Don't think I won't throw!"

She winged one bottle at him, barely missing his head.

The thug ran.

WOMAN KILLED

PITTSBURGH (AP)—An auto smashed into a Pennsylvania Railroad train Monday night at a grade crossing in suburban Oakmont, killing Mrs. Mae Gianerakis, 53, of nearby Penn Hills, a passenger in the car.

Her husband, Charles, who was driving, suffered minor injuries.

Bucknell QB Named To All-East Team

NEW YORK (AP)—Paul Terhes Bucknell's outstanding quarterback, has been named to the weekly All-East team of the Eastern College Athletic Conference for the second time this season.

Terhes was picked Monday by sportswriters for the fourth time this year as outstanding player of the game although he played only half the game against Lafayette. He completed 9 of 13 passes and carried five times for 47 yards. He scored one touchdown and he passed for another. The previous Saturday he had set a Bucknell passing record against Rutgers.

AL EXPANSION ON TAP TODAY

NEW YORK (AP) — American League club owners meet here Wednesday to consider expansion to 10 teams by 1962, but the problem of possible franchise shifts could postpone an announcement on which two cities will be added.

The key problem is Kansas City, where the As are about to be sold. The new owners may want to move the club to Los Angeles, a prime target for the AL after the National's three years of success in California.

OTHER SHIFTS

There also may be a rehash of a possible shift of the Washington Senators and perhaps of the Cleveland Indians as well.

If, as AL owners insist publicly, there are no problems over existing franchises, then Minneapolis-St. Paul and Dallas-Fort Worth probably will become the American's ninth and 10th teams. Several cities have applied for AL franchises, including Oakland and Toronto, but Minneapolis-St. Paul has a new stadium—long a lure for the Senators—and Dallas-Fort Worth offers the AL a chance to avoid a shutout in Texas such as the NL accomplished in California.

EXPECT 90,000 TO WATCH NAVY BATTLE IRISH

By JACK CLARY
Associated Press Sports Writer

It takes much more than Joe Bellino to make a good football team, and that includes players like Joe Matalavage and Hal Spooner, too.

This trio forms the nucleus of a Navy football attack that has rolled to six consecutive victories, nine straight in two seasons, is currently ranked fourth nationally, and this week tackles Notre Dame in Philadelphia's Municipal Stadium. A crowd of 90,000 is expected.

But there is more to success than meets the football eye, according to Naval Academy Athletic Director Asbury (Red) Coward, and he is backed up by Coach Wayne Hardin. Both would be the last in the world to sell the team down the Severn River, but they make valid points.

Coward sums it up under the title "3800 Blue and Gold Special." Not a train mind you, but what he calls the unity and esprit of the brigade of midshipmen.

"They have the highest unity and spirit that we've seen at Annapolis in a long, long time," he said today.

Coward said the brigade spirit has rubbed off on the team, which he called "a complete surprise. We knew we had a representative team, but never expected a 6-0 record."

After Navy upset the University of Washington, which Coward called "the bellweather of the season," Hardin paid tribute to the team effort.

Gator Bowl Rules Will Be Changed

JACKSONVILLE, Fla. (AP) — The Gator Bowl football game Dec. 31 will be played under free substitution rules.

George Olsen, general manager of the Gator Bowl Association, today announced the plan to hold the game between college teams under professional rules.

"We would expect a more wide open offensive game with the players doing their specialties," Olsen said.

Several coaches have been outspoken this fall against the so-called wild card substitution rule which permits one player to enter at any time but still generally restricts entry and makes it necessary to coach players on both defense and offense.

Reporter Finds Excellent Highways Being Built Under Colossal Road Program; Also Finds Simple Ineptitude, Brazen Frauds

Editor's Note — The United States is pouring huge sums into a highway program designed, ultimately, to let you whiz from coast to coast without a stop light. How well are the taxpayers' billions being spent? This is the first of four articles based on nearly five months' investigation of the project.

By BEM PRICE
AP Staff Writer

WASHINGTON (AP) — The United States is now engaged in the colossal task of building 41,000 miles of superhighways at $1 million a mile.

For many months now, this massive, four-year-old project has been plagued by rumors of widespread mishandling and corruption.

After nearly five months of on-the-spot investigation across the nation, the findings indicate that some reports of the program's troubles have been exaggerated.

But they also indicate that, around the edges, the project is sometimes beset by politics and profiteering, folly and fraud.

COSTS ARE REASONABLE

And so is the 44-year-old federal-state program for building, primary, secondary and urban roads.

In most cases, excellent highways are being built at an apparently reasonable cost.

And once the superhighways are completed—in 1975 if all goes well—you'll be able to zip from coast to coast at 60 or 70 miles per hour without encountering a stop light.

Nevertheless, the programs are afflicted by problems ranging from simple ineptitude to brazen frauds—and taxpayers are footing the bill.

Every time you buy a gallon of gas you contribute four cents to the federal government's share of highway building costs. You pay an equal amount, or more, in state gas taxes.

SCANDAL IN INDIANA

Due to the vastness of the great federal program, even a five-month investigation could not cover the details in every state. Facts disclosed in one state, however, could apply to many. Much of what has been going on in the highway programs is already known to Congress. Further investigation by federal or congressional agents with subpoena power may disclose additional troubles.

Meantime, what has this reporter's survey turned up?

One land-buying scandal in Indiana has already been highly publicized. Two others of even greater scope appear to be brewing in Massachusetts and Florida.

ROAD MATERIAL FRAUD

A congressional investigating committee says a case of possible fraud in road materials is developing in West Virginia.

In New Mexico a $1-million road began crumbling before it was half completed. At least four other roads in New Mexico are in "distress" though they are less than three years old.

These are only a few examples. There is, additionally, the $176-million federal bureaucratic goof which resulted in the building of 800 bridges too low to permit passage of certain defense equipment, including some missiles and tank field maintenance vehicles.

MATCHES STATE FUNDS

Two road-building programs across the nation are involved.

The first began in 1916 and under this program the federal government matches state road funds on a 50-50 basis. Currently the federal government is contributing $925 million a year to this program.

The special "superhighway" program began in mid-1956. Under this program the federal government reimburses the states at the rate of 90 cents for each dollar spent.

These superhighways are designed to standards believed necessary to handle traffic in 1975. Fifteen years from now there will be an estimated 111 million vehicles on the roads, compared to 73 million now.

LINK LARGE CITIES

Upon completion, the superhighways are expected to carry about 20 per cent of the nation's traffic and will connect 90 per cent of all cities over 50,000 population.

Since July 1, 1956, about $3.5 billion, including $3 billion in federal funds, has been spent on the superhighway program.

In that same period $6.5 billion, including $3.4 billion in federal monies, has been spent by the states and federal government on the primary, secondary and urban road program.

At present the expenditure of another $5 billion for superhighways has been authorized, while $3 billion has been earmarked for primary, secondary and urban roads.

FEDERAL CONTRIBUTION

The federal contribution for this future construction will be $5,916,700,000 of the $8,065,900,000 total.

What has it all bought and what is it buying?

To date, 3,692 miles of superhighways have been built with federal financial participation to 1975 high-speed standards and an additional 3,139 miles of existing primary roads have been improved to meet needs of the 1960s.

Additionally, work is under way on 4,690 miles and rights-of-way are being acquired for 10,092 miles.

These figures do not include the several thousand miles of toll expressways incorporated into the interstate system but financed by the states alone without federal participation.

As for the primary, secondary and urban road program, approximately 100,000 miles have been built or improved in the past four years. Contracts have been signed for work on an additional 26,000 miles.

MAN WANTED BY FBI SLAIN FLEEING JAIL

KNOXVILLE, Tenn. (AP) — Clarence Leon Raby, who became one of the FBI's 10 most wanted criminals after he shot and killed two men, was shot to death Monday night as h etried to shoot his way out of jail.

A deputy, Kenneth Milligan, was wounded as he shot it out with Raby in the jail's corridor.

Police were holding two women for investigation in connection with the break attempt.

Raby, 27, was being held in Knox County Jail pending trial at nearby Clinton, Tenn., on two murder charges and two robbery charges.

PULLED GUN

Police said Raby called officers to his fourth floor cell on the pretense he wanted to make a statement in connection with another death in his case.

He pulled a gun on the unarmed pair and forced them and the jailer to get on an elevator—the only way out of the building.

On the first floor, Raby got off the elevator, fired at other officers through the glass-partitioned jailer's office and ran toward the front of the building.

Raby was shot down on the front lawn.

U.S. Price Of Gold Not ThreatenedByWorldDemand

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—Who is bidding up the price of gold on the London Market? This morning it shot up above $40 an ounce again —$5 more than the U.S. Treasury selling price.

After gold's wild rise Thursday to nearly $41, the U.S. Treasury flatly said it wouldn't raise its buying or selling price and the London free market subsided Friday with gold closing around $37.

The central banks of other nations could sell gold on the London market, taking the $40 to buy gold from the United States at $35, and pocket the $5 profit.

NO SIGNS

Wall Street bankers say that last week at least there was no sign that any central banks were involved either in buying the gold or in supplying it to the market.

There is every sign that the United States is firmly discouraging any such run on its gold stocks. Wall Street bankers doubt if any friendly nation would go against Washington's wishes at this time, since such a devaluation of the dollar might upset all world foreign exchange markets, as well as playing into Soviet hands.

American speculators could be selling and buying gold on the London market. They can't do so here as the law permits sales only for art and industrial purposes or to other governments and their central banks, or to some international monetary bodies.

USE SWISS BANKS

But Americans can, and have, bought and sold gold through Swiss banks, where their transactions can be confidential.

Some American buying could be pure gambling on the chances of a rise in the price of gold—for a quick killing.

But Britons say some American buying could be tied to the uncertainties of the American election. Talk of devaluation if the Democrats win—talk which Sen. John F. Kennedy has denied — could lead American financiers to seek gold as a hedge.

EUROPEAN DEMAND

Devaluation of the dollar before the election by a Republican administration would play into Democrats hands—and not even Europeans think that remotely likely.

But the biggest demand for gold on the London market is believed to come from European, Mideast and Far East speculators, who have been in and out of the world gold markets for years—and from peasants in many lands who turn to gold wherever dobuts are aired about the value of currencies.

Such doubts today are tied to the fear that no matter what the U.S. Treasury says it will be forced to devalue the dollar.

ADD DENIED

The reasoning—all of which is denied by the Treasury — is: A deepening recession could put the Treasury into deficit financing again, reviving inflation; that the three-year excess in the amount of money has been spending for imports, overseas investments and foreign aid over what it has taken in from its exports and returns on its investments could mean that its steady loss of gold will continue. The Treasury now has $18.5 billion in gold. In 1949 it had $24 billion.

The free market in gold in London isn't a big one. Through it, the British treasury sells newly mined gold from South Africa and Australia. And on it private gold holdings can be traded. The Soviet Union has apparently made use of it through Swiss bankers when it suited Soviet purposes.

ANOTHER IN PASSING

But most of the gold outside Soviet hands is held by the United States and the governments and central banks of the non-Communist world.

If these banks stick by the U.S. Treasury's stand, the gold rush in London may prove just another of the passing ones—the last big one was in 1952, when black market prices went to $55 an ounce, with rumors of it's having touched $60.

FIERY CRASH ON TURNPIKE KILLS TRUCKER

CHAMBERSBURG, Pa. (AP)—A fiery collision of three tractor-trailers and a car in the Pennsylvania Turnpike's Tuscarora Tunnel killed one man and injured three other persons Monday.

Walter B. White, about 40, of McKees Rocks died in the flaming wreckage of his tractor-trailer. White was pinned in the cab when a load of steel aboard his rig shifted after the collision.

Turnpike crews heard White's cries for help as they tried frantically to get into the tunnel and reach him. But intense heat from a fire, started by ignited gasoline, kept rescuers away.

TWO-HOUR TIEUP

Other persons involved in the crack-up managed to get out of their vehicles and flee from the tunnel as flames raced from the car to the demolished tractor-trailers.

Traffic in the area of the two-lane tunnel, about 15 miles northwest of here, was held up for more than two hours. Firemen from McConnellsburg put out the flames in slightly over an hour.

Turnpike state police at Newville gave this account:

HOW IT HAPPENED

A tractor-trailer driven by Walter Boze Jr., 28, of Delton, Mich., and a car operated by James H. Mulligan, 49, Munhall, Pa., were stopped inside the tunnel because a car ahead had broken down and held up westbound traffic.

A tractor-trailer, driven by Martin R. Marsh, 31, Newton, N. J., struck the rear of the auto, driving it into the back of Boze's rig. Marsh's rig then bounced across the medial strip into the path of White's westbound truck.

Gasoline that had spilled from the car became ignited and the flames spread quickly to Marsh's and White's rigs.

Troopers said Marsh told them his brakes failed.

Treated for minor cuts and discharged from McConnellsburg Hospital were Mulligan and his passengers, William G. Skyrmes and his wife, Eleanor, both 40, also of Munhall. Mulligan's wife, Louise, was unhurt. The other truck drivers also escaped without injury.

GE'S WORKERS NOT ALL BACK

NEW YORK (AP) — Several thousand workers are still off the job at various General Electric Co. plants around the country, despite the settlement of a three-week strike.

GE said full production and a return to work in most of the 55 struck plants could be expected by the end of the week. Some plants were partially idle because of shortages of materials, and because production lines take several days to get back into full swing.

The strike of about 70,000 members of the International Union of Electrical Workers (IUE) was settled last Saturday after agreement was reached on a three-year contract, which included an immediate 3 per cent wage increase.

Workers were scheduled to return Monday, but pickets marched outside some GE plants. Many IUE men refused to cross the picket lines.

About 12,000 employes, mostly IUE production workers, at two plants in Lynn, Mass., and one in Everett, Mass., refused to cross picket lines of the American Federation of Technical Engineers, which represents about 1,100 draftsmen and planning men.

The engineers' strike was based on local insues and was not connected with the nationwide IUE walkout.

When Wife Goes Through Hubby's Pockets, It's A Sign She Loves Him

By HAL BOYLE

NEW YORK (AP) — Did the: ever live a wife who didn't enj looking through her husband pockets?

It is highly doubtful—not if sh really loved him.

If you bring up this question a a social gathering, some lady i bound to declare in ringing tones "I have been married 20 years and never went through my husband's pockets once. Why, wouldn't think of doing such a thing!"

ONE BIG DIFFERENCE

When you hear a woman make a flat statement like that, you can figure, in most cases, that she ought to go right home and wash her mouth out with soap, her husband doesn't have any pockets or she never cared enough about him to look through his pockets.

One of the big differences between husbands and wives is their curiosity about each other.

The average husband may have been a green-eyed suitor during courtship, but after marriage he tends to take his wife for granted. When she objects to this, he tells her in wondering surprise, "Why shouldn't we take each other for granted? Didn't I stand up before the preacher man with you and make all them big vows? Didn't you make all them big vows, too?"

DOUBTS ENDED

That settles the matter for him. The donning of the marital harness ends his doubt of her. Now and then he is startled into wonder by some feminine whim she demonstrates, but he decides philosophically that all women are ke that. His basic curiosity about s wife is satisfied when she decides to spend her life with him. The fact he has her love is nough for him.

He wouldn't think of secretly going through the handbag she carries in order to find clues to her ner life and her way of thinking.

UST KNOW ALL

Ask him why, and he'll probably eply: "It never occurred to me. f she has anything on her mind, he'll tell me—and not just once, either."

"Anyway, it would take a day o paw through all the junk she arries. The only thing I can't see s how a girl her size and weight an pack around all that trash without breaking her back."

But a woman, no matter how much her husband loves her, never quite loses her all-enveloping curiosity about him. She wants o know everything about him—from the callous on the sole of his foot to the dandruff in his thinning scalp.

SHE LEARNS THINGS

Since a husband's grunts aren't very communicative, she likes to go through his pockets. "I had to empty them so I could send your suit to the cleaner," she explains carefully.

It isn't—after the first few years —that she mistrusts him and expects to find a love note proving he has a secret girl friend. It's just that the contents of his pockets tell her things about him she wants to know.

Does she find three packs of cigarettes? That means it's time for her to lecture him again on smoking too much.

What about this invitation to a friend's party next Tuesday? He had forgotten to tell her. They'd have missed it—if she hadn't decided to send his suit to the cleaners.

NATURAL DETECTIVE

Why is he carrying these antiacid tablets? Is he afraid he's getting an ulcer and doesn't want to admit it? She'll insist he go to the doctor for a checkup.

A wife is a natural detective. The pockets of her husband tell her 101 little things about him that Sherlock Holmes couldn't guess—because she looks with the careful eyes of love.

The time for a husband to worry is when his wife quits going through his pockets. It might well mean she had lost her curiosity about him—and that's the worst sign of all.

For a woman who isn't curious about a man can hardly be in love with him.

You'll find "knock-down, drag-out" bargains in today's Want Ad section. Look it over.

WORD TO THE LONELY

RIDGECREST, N. C. (AP)—"Loneliness is a very serious problem," the Rev. Dr. Jack Noffsinger, of Winston-Salem, N. C., told a Southern Baptist student meeting here. "The Bible says it is not good for men to live alone. God intended that we should not approach marriage frantically, but understanding something of the sweet mystery of life."

Congregational "Family Night," sponsored by the Women's Guild and the Churchmen's Brotherhood, will be held on Thursday, November 3, at 6:30 p.m. in the parish house of Grace United Church of Christ. It will be a covered dish supper and the film, "Treasure At Bethany," will be shown.

The Missionary Society of the Taneytown Presbyterian Church will meet Wednesday, November 3, at 7:30 p.m. at the home of the Misses Amelia and Elizabeth Annan, E. Baltimore St.

The district World Community Day service will be held in the Taneytown United Presbyterian Church, York St., Friday, November 4, at 7:30 p.m.

The theme is "Christian Action For Freedom." A dramatization entitled "A World Made Free" will be presented with special music. An offering will be received to be used to train health workers in Ethiopia, Nigeria and Burma.

A special project this year includes home medical kits, children's hospital gowns and yard goods for children's dresses. The medical kits will serve a new circle of those in need in many countries. In Chile and in Pakistan, they will be given to mothers who have been receiving instructions in health practices. The gowns will be sent to missionary hospitals in Liberia, Hong Kong, India, Egypt and Jerusalem.

FARMS ADDED

(Continued From Page 1)

also 446 more farms with telephones, increasing from 1,550 in 1954 to 1,696 now.

The only decline was in the number of farms having milking machines. They dropped by 46 from 491 to 446. The decline in the number of milking machines seems based on the decrease in the number of dairy farms. The census shows that farms selling milk and cream declined from 739 in 1954 to 572 in 1959, but the record also shows that the decline was caused by a dropoff in small operators, while there was an increase in size of larger operators. Where countians sold $2,514,259 worth of milk and cream five years ago, last year they sold $3,217,785 worth.

The farm equipment counted in 1959 with no corresponding count listed for 1954 included 26 crop dryers for grain forage and other crops, 726 power-operated elevators, conveyors or blowers and 496 electric milk coolers.

GIVE PAPERS ON HEADWAY IN CANCER CURE

PHILADELPHIA (AP) — Physicians report headway has been made in the treatment of cancer of the gastrointestinal tract with one of a group of chemical compounds known as fluorinated pyrimidines which were developed in the search for a cure.

The report and other advances in the chemotherapeutic and surgical treatment of cancer were discussed Monday in papers presented at the opening session of the American College of Gastroenterology convention.

The papers were presented by Drs. Arthur J. Weiss and Laird Jackson, of the Jefferson Medical College Hospital and Dr. Charles B. Ripstein, director of surgery at Beth-El Hospital, Brooklyn N. Y.

PRELIMINARY REPORT

Weiss and Jackson made a preliminary report on results achieve at Jefferson with one of the fluorinated pyrimidines known as 5-fluorouracil in treatment of 58 patients with far advanced, inoperable cancer.

They said a measurable decrease in the size of the tumor and significant reduction of pain resulted in 35 per cent or 13 of the 37 patients who had cancer of the colon. The doctors said seven of the other patients felt better, making a total of 54 per cent or 20 patients of the 37 who were improved over-all.

Weiss and Jackson stated that an additional 21 patients who were treated for cancer of the pancreas, liver, bile ducts and stomach showed some improvement but there were not sufficient cases in these categories from which to draw a significant conclusion. They said these remissions have lasted from six weeks to 14 months.

ATTRIBUTES MADE

The 58 patients reported on are part of a group of more than 120 with far-advanced malignancies of various types who have been treated in nearly two years at Jefferson with the 5-fluorouracil compound, the reports said.

Ripstein reported on operations on 1,000 patients with cancer of the colon, among them 40 patients who had more than one cancer. He said there were only 14 deaths and in the last 90 cases only one death. Ripstein attributed this to the use of antibiotics and advances in surgical techniques.

COUPLE SPLITS OVER POLITICS

GARDEN CITY, N.Y. (AP)—Alicia Patterson, editor and publisher of Newsday, today endorsed Sen. John F. Kennedy for president.

At the same time, her husband, Harry F. Guggenheim, the newspaper's president and co-owner, announced his personal endorsement of Vice President Richard M. Nixon.

The paper, which lists itself as independent, supported Dwight D. Eisenhower in 1952 and Adlai E. Stevenson in 1956.

In a signed editorial, Miss Patterson made it clear she was expressing the opinions of the newspaper in endorsing Kennedy.

Guggenheim, in a signed column opposite the editorial page, differed with the views expressed in the editorial.

In the 1940 presidential campaign there was a similar division in Newsday—with Miss Patterson supporting the late Franklin D. Roosevelt and Guggenheim supporting the late Wendell L. Willkie.
